

CLASSIC FURNITURE / CRAFTSMAN

Working with Deliver Clever has been a great experience for us. We were looking to find a Company that could deliver on our behalf and were wary that by using a third party we might not get the same level of commitment and care that we have in house with our own delivery crews

We were totally impressed by the standards of customer service that we received from them and they have consistently gone the extra mile to make sure that everything runs smoothly.

We would not trust our good name to anyone who could potentially damage our reputation and I am delighted that the overall service we are given is way beyond average. I have complete confidence in them to deliver on our behalf and to give our clients a positive impression at all times.

Everyone at Deliver Clever works with us as a team and I would fully recommend them to any Company that seeks to outsource any part of their logistics. It would be difficult to find a better Company to work with
