

### **Allans Furniture Warehouse**

Having Deliver Clever as our logistics partner for our Internet sales has been great. We have complete faith in the services they offer and our sales teams know that they can accept orders from anywhere in the United Kingdom.

A good delivery service is the final touch and we place great importance on this in order that our customer base keeps coming back as repeat business. We have tried many delivery Companies in the past but none have been as dependable and professional as Deliver Clever. I would highly recommend them.
