

HANN FURNISHING

Deliver Clever have been supplying us with their 2 Man Home Delivery package since 2001 and we have enjoyed a fantastic service from them. Their delivery crews have always been polite and presentable and their customer contact has always been excellent. We have never had cause to complain and received only positive feedback from our customers who have made comments on our website and social media pages regarding the delivery service from our store.

I would recommend them fully to any retailer or store who needs a delivery company to deliver on their behalf and suggest they should get in touch with Deliver Clever as the best option
