

## **GLENCRAFT**

I enjoy working with Deliver Clever and always find them to be helpful and responsive to our needs.

Being situated in the far north of Scotland gives us limited options when it comes to Delivery Companies who will collect from us and then deliver across England and we are pleased that we have them on-board with us to help with our distribution. Our weekly collections are regular as clockwork and we are never let down with vans not turning up as promised at the scheduled times. They give us a superb service and I would happily recommend them to anyone who needs their goods delivered nationwide.
