

EXPECT DISTRIBUTION

We contacted Deliver Clever some years ago when we were looking to network with a distribution partner who could handle our 2 man freight throughout Scotland. It was not viable for us to send our own vehicles from England to the North of Scotland with only a small number of deliveries at a time

Deliver Clever were able to service these areas for us in a very short lead time and on a very regular basis and the costs to us were much lower than if we had made the deliveries ourselves. Delivery lead times were reduced dramatically and we were particularly impressed that there were never any issues with damages or failed deliveries

Our partnership with Deliver Clever and all of their helpful support staff has been fantastic from the very start and both Companies have worked together perfectly to keep our clients completely satisfied.

I would highly recommend them to any other carrier or delivery company looking for a trade partner in Scotland
